

This week we have worked hard in maths to subtract fractions with different denominators. They used their times tables knowledge to convert fractions by finding common denominators. They were really **Tough Tortoises** when it came to problem solving and reasoning task to deepen their understanding of fractions.

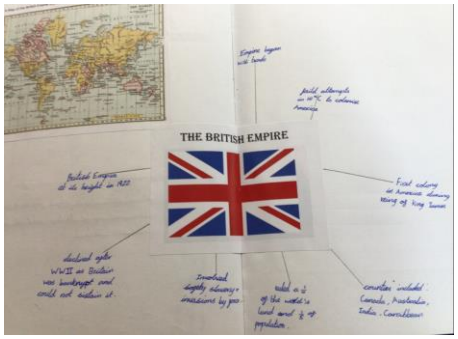

As **Team Ants** we have researched the Industrial Revolution as part of a build-up to writing a non-chronological report. Children shared their discoveries as a class, so we could all use the fantastic information that we found with a research partner.

Year 5 have been learning about pulley systems as part of a D&T project. They have learned about different types of force and motion and have created working diagrams of how a pulley works. Theyn will need to be **Resourceful Squirrels** next week when they design and build their own pulley system!

We have all been blown away this week by our **Wise Owls** as they have worked hard to learn all about the Industrial Revolution

Reminders from your teacher:

- Please make sure you bring your P.E kit on a Monday ready for the week
- Remember 'Reading is the golden thread to learning' so please read at least 3 times a week.

Important Dates

Spring half term – Monday 12th February – Friday 16th February
PD Day Monday 19th February
Easter Break – Monday 25th March – Friday 5th April

- **Our Value for this half term is: Kindness**

What Does It Mean to Be Kind?

K - **K**eep an open mind and a listening ear.

I - Be **I**nterested in others.

N - Use **N**ice words only.

D - Make **D**iversity welcome.

When we listen, take interest in others, use nice words and welcome all people, we will be **KIND**!
