Ladygrove Nursery
Pupil premium strategy statement

2024-2025

This statement details our school's use of Early Year's Pupil Premium for the 2024 to 2025 academic year.

It outlines our pupil premium strategy, how we intend to spend the funding in this academic year.

School overview

Detail	Data
Nursery Name	Ladygrove Primary School and Nursery
Number of pupils on roll in Nursery Number of children entitled to EYPP Autumn Term 2024 Spring Term 2025 Summer Term 2025	27 (Autumn) 38 (Spring) 43 (Summer) 3 children 6 children 8 children
Proportion (%) of pupil premium eligible pupils:	11% - Autumn Term 15.8% - Spring Term 18.6% - Summer Term
Academic year/years that our current pupil premium strategy plan covers **(3 year plans are recommended)**	2024/2025 2025/2026 2026/2027
Date this statement was published	September 2024
Date on which it will be reviewed	September 2025
Statement authorised by	Full Governing Body
Pupil premium lead	Jo Weichlbauer/ Kirsty Stewart
Governor lead	Nicky Brown

Funding overview

Detail	Amount
EYFS Pupil premium funding allocation this academic year	£4,527 **Yearly Total (based on Autumn Term figures)**
Pupil premium funding carried forward from previous years	**£0**
Total budget for School year.	**£4,493.28**
Total spent by School	**£4,493.28**

Part A: Pupil premium strategy plan

Statement of intent

Decisions made in regard to our Pupil Premium and Recovery Premium spend have been based mainly on the research of the Education Endowment Foundation. Our spend is targeting at narrowing gaps; both in terms of experiences provided for Pupil Premium Funded children and the progress they make and the levels of attainment they achieve.
We have based our rationale based on the barriers which our children face. These are listed in the sections below. Our biggest barrier relates to lower attendance rates for our PPG children; as if our children are not in school, we cannot work to reduce other barriers to learning.

Our ultimate objectives are:

- ✓ To provide equity for Pupil Premium children.
- ✓ To narrow the attainment gap between disadvantaged and non-disadvantaged pupils.
- ✓ For higher percentages of Pupil Premium children to achieve age-related expectations at the end of EYFS.
- ✓ For higher percentages of disadvantaged pupils in school to make or exceed nationally expected progress rates.
- ✓ To support our children's health and wellbeing to enable them to access learning at an appropriate level.
- ✓ To support our children and their families to ensure that disadvantaged children attend school on time every day with the equipment needed to access learning.

We aim to do this through:

- Ensuring that teaching and learning opportunities meet the needs of all the pupils
- Ensuring that appropriate provision is made for pupils who belong to vulnerable groups, this includes ensuring that the needs of socially disadvantaged pupils are adequately assessed and addressed
- When making provision for socially disadvantaged pupils, we recognise that not all pupils who receive free school meals will be socially disadvantaged
- We also recognise that not all pupils who are socially disadvantaged are registered or qualify for free school meals. We reserve the right to allocate the Pupil Premium funding to support any pupil or groups of pupils the school has legitimately identified as being socially disadvantaged.
- Pupil premium funding will be allocated following a needs analysis which will identify priority classes, groups or individuals. Limited funding and resources mean that not all children receiving free school meals will be in receipt of pupil premium interventions at one time.

The range of provision the Governors consider making for this group include:

- Ensuring all teaching is good or better thus ensuring that the quality of teaching experienced by all children is improved.
- Ensuring that communication skills are at the heart of the curriculum and that pupils from disadvantaged backgrounds are given every opportunity to develop speech and language skills and have regular opportunities to speak with adults and their peers to develop their skills.
- To support children who are 'off-track' by targeted intervention; delivered by teachers and/ or teaching assistants either in a small group or on a 1:1 basis

- To ensure that children from disadvantaged backgrounds make at least expected progress from their starting points
- To ensure that children have the same experiences, so we support payment for activities and visitors.
- Emotional and behavioural support via our Inclusion and Wellbeing Manger and our pastoral team.
- Providing food for children via snack time.
  Providing children with the equipment needed for the day e.g., by providing children with clothing (e.g. shoes or coats).

Challenges

This details the key challenges to achievement that we have identified among our disadvantaged pupils.

Challenge number	Detail of challenge
1	Lower attendance rates than non-EYPPG peer group.
2	Higher rates of lateness when compared to non-EYPPG children.
3	Some children exhibit poor social and emotional skills.
4	Some children have poor self-regulation strategies e.g. unable to sit for more than a few minutes at a time.
5	Some children have less developed fine/ gross motor control than their non EYPP peers.
6	Early Language skills are not as developed as their peer group.
7	Less children achieving in line with age related expectations.
8	Parental engagement.

Intended outcomes

This explains the outcomes we are aiming for **by the end of our current strategy plan**, and how we will measure whether they have been achieved.

Intended outcome	Success criteria
To improve attendance and punctuality of EYPPG children.	Ensure attendance of disadvantaged pupils in Nursery improves and that lateness is reduced for individual children. Reduction in the number of late marks for EYPPG children.
To develop the social and emotional skills of EYPPG children.	More children achieving in line with age related expectations in the PSED elements of the EYFS curriculum. Children better able to manage their emotions after accessing social and emotional intervention. Less behaviour incidents for key PPG children logged on CPOMS tracking system.
PPG children to have improved fine/gross motor skills.	EYPP children are ready for early mark making activities and their fine motor skills are in line with their non-EYPP peers. PPG children to make accelerated progress, from their starting points, in Physical Development in EYFS. Higher percentages of children achieving expected levels in Physical Development at the end of EYFS.
To develop the speech and language skills of children in receipt of EYPP through extending words they are exposed to and that they understand.	PPG children to make accelerated progress in Speaking, Listening and Understanding in the EYFS curriculum. Higher percentages of children achieving expected levels in Speech and Language at the end of EYFS. Year on year reduction in the number of PPG accessing Talk-Boost interventions in EYFS, KS1 and KS2.

Activity in this academic year

This details how we intend to spend our pupil premium (and recovery premium funding) **this academic year** to address the challenges listed above.

Teaching (for example, CPD, recruitment and retention)

Budgeted cost: £598.88

Activity	Evidence that supports this approach	Challenge number(s) addressed
Additional staffing costs of the recruitment of an additional member of Nursery staff to support in Children's self-regulation skills. **Staffing: £598.88**	**EEF EYFS (+3)** **Self-Regulation Strategies** Self-regulation strategies are important for children to develop into independent learners. Helping young children to talk and think about their own actions and behaviours is likely to help them with not just their learning and social interactions in early years settings but may have a lasting positive impact on later learning at school. Additional member of staff will support children's self-regulation by working with specific children at different times of the day through specific interventions e.g. Attention bucket.	3, 4, 7

Targeted academic support (for example, tutoring, one-to-one support structured interventions)

Budgeted cost: £2,395.52

Activity	Evidence that supports this approach	Challenge number(s) addressed
Speech and Language intervention in Nursery via the Talk-Boost intervention Project Listen with Lucy **Cost: £2,395.52** **(4 hours Level 3 salary per week over the course of the academic year)**	**EEF EYFS (+7)** **Communication and language Approaches** Previous EYFS Speech and Language interventions in Nursery have been successful in ensuring that children's language is school ready. This has meant that key children understand far more what is going on within the classroom and are better able to interact with their peers.	6, 7, 8

	PPG research shows that PPG children generally are exposed to less language prior to starting school. Having a vocabulary focus ensures that children are exposed to rich language.	

Wider strategies (for example, related to attendance, behaviour, self-regulation and wellbeing)

Budgeted cost: £1,498.88

Activity	Evidence that supports this approach	Challenge number(s) addressed
To develop children's fine and gross motor skills through physical play. Additional resources purchased for the nursery outside area to support with physical play. Additional member of staff to enable outside sessions within the nursery forest area. (Mini Spinney) **Staffing: £598.88** **£900 to purchase resources**	**EEF EYFS Physical Development Approaches (+ 5)** On average, children who take part in physical development interventions make around five additional months progress in cognitive outcomes.	5
Stay and Play sessions for Nursery supported by the school's Child and Family Support Worker **Cost:** This has been met through school PPG strategy funding as lots of the children have siblings in school.	**EEF EYFS Parental Engagement (+ 5)** As a school we have researched with other local maintained nurseries with strategies to support attendance. Stay and play has successfully worked in other settings as a vehicle to building positive relationships with parents and engaging them in their child's education in a non-threatening way. The average impact of the Parental engagement approaches is about an additional four months' progress over the course of a year. There are also higher	1, 2, 8

	impacts for pupils with low prior attainment.	
Family Support worker intervention to support families with Nursery age children with lower than 90% attendance to unpick barriers to intervention. **Cost:** This has been met through school PPG strategy funding as lots of the children have siblings in school.	Without regular school attendance Pupil Premium children cannot close gaps in their learning. The EEF is currently running an assessment of attendance interventions for school, but the findings have yet to analysed and published. Their report evidences that even minimal improvements to attendance means that children make educational progress, although there is currently no month banding for this. As a school we have noted a pattern that poor attenders in Nursery have a higher percentage of being persistently absent when they are of statutory school age. We are therefore keen to work with families in this age bracket to break down barriers to attendance which will build positive habits of school attendance.	1, 2, 8
